EXECUTIVE SUMMARY

Computer Science graduate with a sharp focus on quantitative analytics, data modeling, and risk-aware systems. Worked hands-on with data schema optimization, cloud infrastructure, and collaborative problem-solving during internship at Wells Fargo. Fluent in Python, SQL, AWS, and system design thinking. Currently on a 160+ day DSA and analytics grind, building quant reasoning muscle while staying grounded in real-world system impact. I want in where impact meets precision.

CERTIFICATIONS

- ITIL Foundation, Udemy, 2025
- Deloitte Data Analytics & Visualization Internship, 2025
- AWS Solutions Architect Virtual Experience, Forage, 2025
- AI Internship, IIT Roorkee & Teach Nook, 2024
- AWS Cloud Foundations Internship, Amazon, 2023
- Accenture Data Analytics Virtual Internship (In Progress)

CORE SKILLS

- Languages: Python, SQL, Java (basic)
- Analytics Tools: ER modeling, data schemas, logs, Excel
- Cloud: AWS (EC2, S3, Lambda, IAM), GCP
- Systems: Linux (Ubuntu/CentOS), Windows
- Tools: Jira, Salesforce, Trello
- Frameworks: ITIL, incident/problem/change tracking
- Soft Skills: Docs, async teamwork, data synthesis

TECHNICAL EXPERIENCE

Software Engineering Intern | Wells Fargo | Apr 2025 - Present
- Built ER models and fine-tuned data schemas, improving query speed by 15%
- Engaged in low-to-mid risk systems work with direct exposure to compliance frameworks
- Collaborated on initiatives touching performance, data reliability, and structural clarity

Technical Consultant | SAP | May 2025
- Tackled recurring tech issues and increased process efficiency by 25%
- Published weekly trend reports for defect reduction

Service Desk Engineer | Datacom | May 2025
- Crushed 50+ tickets, nailed 98% first-call resolution
- RCA across 15+ incidents helped cut future pain by 20%

Solutions Architect (Simulated) | AWS | Apr 2025
- Mock-deployed infra for 1000+ users, held 99.9% uptime
- IAM policy design improved audit readiness by 25%

Cloud Support Intern | AWS | Apr 2023 - May 2023
- 40+ tickets resolved with tight SLAs

Khammam, India 507001

GitHub: github.com/KamaRajeshbabu | LinkedIn: linkedin.com/in/kamarajeshbabu

- Wrote internal guides that cut new hire ramp-up time by 35%

EDUCATION

B.Sc. in Computer Science and Engineering | PRIST University | Sep 2024
- GPA: 7.3 / 10
- Best Innovation Award: AgriTech Bug Detector
- Coursework: Probability, Stats, DBMS, DSA

PROJECTS

AI Financial Chatbot (NLP/ML): Improved resolution by 25%, reduced latency by 40%
Full-Stack Automation Platform: 90%+ test coverage, cut onboarding time by 60%
Speech-to-Text Converter: Hit 95% accuracy with Python; slashed manual entry
GenAI Simulation (BCGX): Applied LLMs to business use cases in risk/data modeling
